

Please do not take K-Love radio station off FM translators. I have listened to K-Love for several years and it is a positive influence on it's listeners. I have this station on at work, at home and in my car. I listen constantly and feel that putting it on a LPFM would not reach as many people. We are living in a time when people need as much encouragement as possible and K-Love provides this. I am comfortable having this station on while my seven year old daughter listens. I do not like the lyrics on the other stations, which could be harmful to her. I enjoy this station so much that I support it monthly. Please do not remove K-Love (91.1) from the FM translators!
